

## LED CANOPY GAS STATION LIGHT

HIGH LIGHT • DURABLE • SAVE COST  
50W/100W/150W/200W

Ultra-high efficiency  
up to 150lm/W

LED Gas Station lights can be a replacement of HID and other traditional light fixture, provided with higher efficacy, a longer lifetime 50,000H at least or even more upto100,000H and very lower breakdown opportunity,Adapt to the current voltage situation in different areas of stability, with short circuit overload, over temperature protection, significant energy savings while remaining durable in the field.

## ► Features

- ☑ Short circuit overload, Over temperature protection.
- ☑ Full power perennial use of low light decay,seiko aluminum,to avoid breakage and corrosion
- ☑ Die casting aluminum engineering lamp body,high hardness,strong impact resistance.
- ☑ Beam Angle: 30° 60° 90° **optional**
- ☑ Through various of experimental tests: wind resistance level test, conduction radiation, 1.5G seismic test, UV aging test, drop, stacking test etc.
- ☑ Ip65 waterproof .

### Tech.Support:

Tell us the place/L,W and usage,we have an engineer team to respond the DIALUX for lights quantity and effects, IES files are available upon request.

Our experienced lighting designers can provide you professional DIALux simulations and constructive LED lighting solutions. We know lighting standards of all applications well and we care about all of your projects. Not matter your case is big or small, we will always provide you solutions.

- Free OEM/ODM. Free DIALux testing service.
- 8 years of engineering experience, for your project escort.
- Complete certificate, CE, RoHS, ETL, FCC etc. Provide a complete test report.
- First sample test, provide complete test report and product picture before delivery.
- 5 years warranty, free replacement.
