NOTICE: Warning: If the lamp pole has existing ballast or capacitor, please take them off.
Because the LED street lamp just connecting to AC(alternating current) input it will work.

- 1 As shown above, we should make the two screws loose with a hex wrench.

- 2 Wiring right and set the lamp into the bracket by the hole.

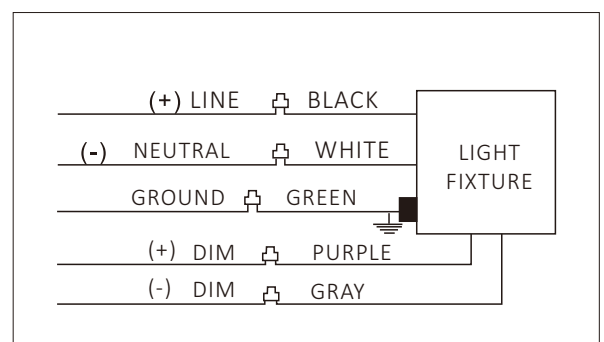

- 3 We should make the two screws fixed with a hex wrench.

- 4 First, unscrew the screw, and then we can adjust the angle of the lamp body we want with a hex wrench.
